

DIGITAL TRANSFORMATIONS

CAPABILITY STATEMENT

Digital Transformations provides Agile coaching to executive level leadership with portfolio and program management utilizing DevOps practices. Our company excels in delivering tangible improvements to operational and financial results through Agile/DevOps transformations.

With a proven track record of success, we specialize in providing hands-on Agile Coaching, ensuring a seamless integration of people, processes, and technology. Our articulate communication and inspirational leadership style make us effective in guiding teams through the complexities of Agile methodologies.

At our core, we are dedicated to maintaining a reputation built on quality, consistently meeting commitments, and upholding uncompromising ethics.

Core Competencies

- Our expertise spans full lifecycle program and project management with Agile Delivery, offering comprehensive support from initiation to delivery
- Leadership Road mapping, Portfolio Planning, Program Execution, and Team Delivery
- Comprehensive Training: Equipping teams with the knowledge to implement Agile and DevSecOps practices
- Facilitate program planning events and workshops
- Agile assessments (Team, Program, Portfolio)
- Help establish DORA (DevOps Research and Assessment) Metrics
- We implement Jira Align to facilitate cross team communication and transparency

Differentiators

- We take pride in our ability to provide Agile/DevOps coaching, training, and mentoring to all levels of the organization, from the team level to the portfolio level, and up to the executive level
- Working with the government to assure that contracts are written to incentivize adoption of Agile core values
- We build long term relationships and establish ourselves as trusted advisors to government leadership
- Focus on cultural paradigm shifts that are required for establishing effective Agile adoption
- Our deep commercial knowledge and extensive experience allows us to equip your organization to embrace Agile practices effectively
- We are committed to fostering a culture of adaptability, efficiency, and innovation to ensure your systems are operationally ready and resilient
